

ALPHA[®]

messaging software

Program your ALPHA[®] electronic message display from your desktop PC. ALPHA[®] Messaging Software[™] comes complete with everything you need to get your message moving in the right direction. Program your messages with the touch of a button. Adjust your messages in a moment's notice.

ALPHA[®] Messaging Software[™] connects with Adaptive's ALPHA[®] electronic message displays. It's easy to use, easy to install and allows you to welcome guests, post events, and keep your traffic flowing. Make your communication more efficient and effective.

The **ALPHA[®] Editor** allows easy creation of high-visibility text messages.
